

Università degli Studi dell’Insubria
Dipartimento Biotecnologie e Scienze della Vita
A.A. 2022/2023

AVVISO DI SEMINARIO

Trends in Biomolecular Sciences

Insights in plant physiology

Monday, March 20th

14.30 – 16.30

room 8PM, Morselli building

Riccardo di Mambro

Università di Pisa

Dynamics of hormones and programmed cell death events during root development

Michela Zottini

Università degli Studi di Padova

The mitochondrial nucleoids-binding protein WHIRLY2 plays a key role in plant development and stress responses
