

Trends in Biomedical Sciences: **ENT**er Seminars

The current role of molecular biology, genetic and immunotherapy
in the management of **E**ar, **N**ose and **T**hroat diseases

ORGANIZED BY:

Prof. Paolo Castelnovo - Prof. Paolo Battaglia – Dott. Mario Turri Zanoni

10 hours (1,25 CFU)

January 29th 2024 – from 2:00 to 4:00 p.m.

Sinonasal Adenocarcinoma: prognostic factors and future therapies

Prof. Paolo Battaglia, University of Insubria

February 13th 2024 – from 6:00 to 8:00 p.m.

Sinonasal inverted papilloma and squamous cell carcinoma: the biological spectrum of epithelial tumors

Dott. Alessandro Vinciguerra, Hôpital Lariboisière, Paris, France

March 12th 2024 – from 2:00 to 4:00 p.m.

Immunotherapy in mucosal melanoma: where do we stand?

Dott. Mario Turri Zanoni, University of Insubria

April 9th 2024 – from 5:00 to 7:00 p.m.

Sinonasal tumors with neuroendocrine differentiation: from olfactory neuroblastoma to neuroendocrine carcinoma

Dott. Marco Ferrari, University of Padua

May 9th 2024 – from 4:00 to 6:00 p.m.

**Role of Biologics in Chronic Rhinosinusitis With Nasal Polyposis:
Real-world stratification of patients**

Dott. Stefania Gallo, University of Insubria

*The classes take place online on Teams platform
Registration is required by email to mario.turrianoni@uninsubria.it
at least 48 hours before the respective seminar*
